## **Factory Statement on Pressure Equipment Directive**

*Smeva Products hereby declares that our products*

- *Vision* (without integral condensing unit)
- *ZB Masterliner* (without integral condensing unit)

*are being manufactured according the requirements of the Pressure Equipment Directive, 97/23/EG-1997.*

*The equipment is classified in the category of products as referred to in article 3, member 3 of the PED and is being manufactured following the rules of sound engineering practice. In this, the (relevant parts of the) following harmonized standards are applied:*

- *EN 378-2000 (Coolsystems and heat pumps)*

*as well as the non-harmonized standards:*

- *RLK ' 97 (Technical Requirements for Refrigeration Equipment - national Dutch Directive)*

*We like to emphasize that for products that fall within the category as described in article 3, member 3 of the PED, an exceptional status exists within the directive. No EG-declaration of conformity can be given, nor can a CE-marking be affixed onto a product coming under the classification of Sound Engineering Practice.*
